How to color digitally

GoodNotes or Notability

1. Open this PDF on your iPad and choose Open in GoodNotes (or Notability).
2. Pick a brush, then use the eyedropper on the palette circles beside each picture.
3. Zoom in for the tiny details. Add a new page any time you want a fresh copy.

Procreate

1. Download the Procreate pages and unzip them in the Files app.
2. In Procreate tap + then Import, and pick a page.
3. Set the line layer to Reference, add a layer underneath, and fill with ColorDrop.

*Pour something warm, light a candle, and take your time.
There is no wrong way to color.*
